

SR-HM Solar Charge Controller

SR-HM series Solar Charge Controller is mostly used for different kinds of solar off-grid power system as a solar control unit, and it also can be individually operated like a common controller. Special bracket design makes it capable of being fixed into any kinds of solar power box, and it's flexible for different application with 2 types of DC loads (5V and 12V).

SR-HM-C

Voltage: 12/24V
Current: 10A/20A

SR-HM-CU

Voltage: 12/24V
Current: 10A/20A

SR-HM-E

Voltage: 12/24V
Current: 10A/20A

SR-HM-EU

Voltage: 12/24V
Current: 10A/20A

Main Features

1. LED indicators (E&EU version) / LCD display (C&CU version) for solar charging & battery status
2. (EU&CU version) Double USB output for mobile device charging
3. Easy to be mounted or fixed into a solar panel box, as a solar charging & DC loading unit

Specification

Model	Rated Voltage(V)	Dimension(mm)			Weight(g)
		L	W	H	
SR-HM-CU10A	12/24	120	74	23.6	140
SR-HM-CU20A	12/24	120	74	23.6	170
SR-HM-EU10A	12/24	120	74	23.6	140
SR-HM-EU20A	12/24	120	74	23.6	170
